

Risk Assessment MCQs (50 Questions, 5 Options Each)

1. How likely is it that an unnoticed weakness could lead to a security incident?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

2. What level of damage could occur if sensitive data is exposed?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

3. How probable is unauthorized access due to weak controls?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

4. What impact could system downtime have on business operations?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

5. How likely is a phishing attempt to succeed within the organization?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

6. What would be the consequence of losing critical business data?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

7. How likely is malware infection due to user behavior?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

8. What impact could a breach have on customer trust?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact

- D. Likely / Significant impact
- E. Almost certain / Severe impact

9. How probable is insider misuse of access privileges?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

10. What level of disruption could a ransomware attack cause?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

11. How likely is a failure in backup recovery during an incident?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

12. What impact could poor patch management create?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

13. How probable is data leakage through third-party vendors?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

14. What could be the impact of weak password policies?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

15. How likely is a misconfiguration leading to exposure?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

16. What damage could occur from delayed incident response?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

17. How probable is exploitation of outdated systems?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

18. What is the potential impact of compliance violations?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

19. How likely is loss of data integrity due to errors?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

20. What impact could unauthorized changes cause?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

21. How probable is a denial-of-service attack affecting services?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

22. What could be the impact of lack of monitoring systems?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

23. How likely is accidental data deletion by employees?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

24. What damage could result from insufficient logging?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

25. How probable is credential theft through phishing?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

26. What impact could poor access control create?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

27. How likely is exposure of confidential information via email?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

28. What is the impact of not encrypting sensitive data?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

29. How probable is a security breach due to human error?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

30. What level of damage could occur from weak network security?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

31. How likely is an external attacker exploiting vulnerabilities?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

32. What impact could lack of security awareness cause?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

33. How probable is delayed detection of a cyberattack?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact

- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

34. What damage could arise from poor vendor risk management?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

35. How likely is failure in incident escalation?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

36. What impact could poor change management introduce?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

37. How probable is data loss during system migration?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

38. What could be the impact of insufficient audit trails?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

39. How likely is a threat going unnoticed due to weak monitoring?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

40. What damage could weak endpoint security cause?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

41. How probable is unauthorized data sharing internally?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact

E. Almost certain / Severe impact

42. What impact could outdated security policies have?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

43. How likely is a breach due to lack of MFA?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

44. What level of disruption could cloud misconfigurations cause?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

45. How probable is exploitation due to unpatched software?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

46. What damage could social engineering attacks cause?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

47. How likely is failure in detecting insider threats?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

48. What impact could poor incident documentation create?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

49. How probable is risk escalation due to delayed actions?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact

50. What could be the overall impact of unmanaged risks?

- A. Very unlikely / Minimal impact
- B. Unlikely / Minor impact
- C. Possible / Moderate impact
- D. Likely / Significant impact
- E. Almost certain / Severe impact
